

## CONVENTIONAL RICE SYRUP SOLIDS DE 20

**Description:** Conventional Rice Syrup Solids DE 20 is a white, free flowing powder, having a mild sweet taste. This multi-functional and natural sweetener is produced through enzymatic liquefaction of Allergen free and non-GMO local rice using state-of- the-art technology.

| Typical Analysis**         |              |                  |
|----------------------------|--------------|------------------|
| Characteristic             | Units        | Limits           |
| Color                      | Visual       | White            |
| Odor                       | Organoleptic | Odorless         |
| Appearance                 | Visual       | Powder           |
| Taste                      | Organoleptic | Mild sweet taste |
| Dextrose Equivalent        | %            | 20-22            |
| Total carbohydrate         | g/100g       | 95-98            |
| Glucose (DP1)              | g/100g       | 2-5              |
| Maltose (DP2)              | g/100g       | 5-12             |
| Other carbohydrates        | g/100g       | 76-86            |
| Moisture                   | %            | 2-5              |
| pH (Diluted to 10% solids) | -            | 4.5-6.5          |
| Density                    | Kg/Ltr       | 0.45-0.65        |
| Ash contents               | %            | <1.0             |
| Starch                     |              | Negative         |
| Protein                    | %            | <0.1             |
| Fat                        | %            | <0.1             |
| Energy                     | Kcal/100g    | 380              |
